

CRONICA DE UNA JUVENTUD

PASÓ sin darme cuenta. Como un viento
en la noche. (Y yo seguí dormido.)
Oh grave juventud. (Tan grave ha sido,
que murió antes de su nacimiento.)

¿Quién dirá que te vio, y en qué momento
en campo de batalla convertido
el ibero solar? ¡Ay! en el nido
de entafío oí silbar
las balas. (Y ordené el fusilamiento

de mis años sumisos.) Desperté
tarde. Me lavé (el alma); en fin, bajé
a la calle. (Llevaba un ataúd

al hombro. Lo arrojé.) Me junté al hombre,
y abrí de par en par la vida, en nombre
de la imperecedera juventud.

RESEARCH AND DEVELOPMENT

1. The first objective of the research was to determine the effect of the proposed changes on the overall system performance. This was achieved by conducting a series of experiments under various conditions.

2. The second objective was to evaluate the impact of the proposed changes on the system's reliability and stability. This was done by monitoring the system's performance over a period of several weeks.

3. The third objective was to assess the system's response time and throughput under different load conditions. This was achieved by conducting a series of performance tests.

4. The fourth objective was to identify any potential bottlenecks or areas for improvement in the system. This was done by analyzing the system's performance data and conducting a detailed review of the system's architecture.
