

## PALABRA VIVA Y DE REPENTE

ME gustan las palabras de la gente.  
Parece que se tocan, que se palpan.  
Los libros, no; las páginas se mueven  
como fantasmas.

Pero mi gente dice cosas formidables,  
que hacen temblar a la gramática.  
!Cuánto del cortar la frase,  
cuánta de la voz bordada!

Da vergüenza encender una cerilla,  
quiero decir un verso en una página,  
ante estos hombres de anchas sílabas,  
que almuerzan con pedazos de palabras.

Recuerdo que, una tarde,  
en la estación de Almadén, una anciana  
sentenció, despacio: "Sí, sí; pero el cielo y el in-  
<sup>clavo</sup> está aquí." Y los <sup>(fierno</sup>  
con ese n que faltaba.

EXHIBIT A - THE REPORT

The purpose of this report is to provide a comprehensive overview of the current state of the industry. It covers the major trends, challenges, and opportunities that are shaping the market today. The data presented here is based on a thorough analysis of industry reports, market research, and expert opinions.

In the past few years, the industry has experienced significant growth, driven by technological advancements and increasing demand for innovative solutions. However, there are also several key challenges that are likely to impact the industry's performance in the coming years. These include the rapid pace of technological change, the increasing cost of raw materials, and the growing emphasis on sustainability.

One of the most significant trends in the industry is the increasing adoption of artificial intelligence and machine learning. These technologies are being used to streamline operations, improve customer service, and develop new products. This trend is expected to continue, as more companies invest in research and development to harness the power of these technologies.

Another key trend is the growing focus on sustainability and environmental responsibility. Consumers are increasingly demanding products that are not only high-quality but also environmentally friendly. This has led to a surge in demand for sustainable materials and processes, which is driving innovation in the industry.

Overall, the industry is in a state of dynamic change, with significant opportunities for growth and innovation. However, it is also facing several challenges that will require careful attention and strategic planning. The data presented in this report provides a clear picture of the current state of the industry and offers valuable insights into the trends and challenges that are shaping its future.
